

FARM NAME _____

Doc.No. **2.26**

Title: **Disposition of Product Related to Temperature Variance**

Effective Date: _____

Reviewed by: _____ GAP Coordinator, Date: _____

1. This facility requests to growers to harvest produce during cool, early morning hours or late evening.
2. The facility accepts produce in the morning until 11 am. No produce will be accepted after 11 unless accommodation has been made with the staff.
3. Growers must communicate with the facility as to time of delivery.
4. Product arriving that registers excess temperature (>10 degrees above recommended storage temperature) will be rejected by staff at the loading dock. We use Doc 8.35 as guidance.
5. Rejected product is the responsibility of the grower and must leave the facility with that grower to be disposed.
